Endorsements

“Teresa Pirola has prepared a masterful and thoroughly researched account of the origins, development, and impact of the Second Vatican Council’s declaration *Nostra Aetate*. What better way could there be to commemorate its sixtieth anniversary? Written in an engaging style, she invites everyone to continue to internalize the declaration’s teachings in the life of the Church and to pursue authentic friendships with people of other religious traditions, particularly Jews. I highly recommend this concise volume to all.”

- Philip A. Cunningham, Prof. of Theology and Co-director of the Institute for Jewish-Catholic Relations of Saint Joseph’s University, Philadelphia

“Teresa Pirola bridges past and present with insight and grace. While she highlights the decisive shift in Catholic thinking that *Nostra Aetate* represents—especially in the Church’s renewed relationship with the Synagogue—she also points to other vital areas where the Church’s conversion of heart and understanding must continue. A work both historical and prophetic, it calls us to keep the conciliar journey alive.”

- Maureen Fritz, NDS, Prof. Emerita, University of St. Michael’s College, University of Toronto, and Founder of Bat Kol International
